

Relaunching of our ESG and Sustainable Finance practice

Consistent with our commitment of satisfying our clients' legal needs, we are pleased to announce the relaunching of our ESG and Sustainable Finance practice, with a unique, multidisciplinary and innovative approach.

The quest to meet the United Nation's Sustainable Development Goals (SDG) has driven governments, non-governmental organizations, investors, financial institutions, and corporations around the world to adopt and strengthen ESG (environmental, social, and corporate governance) standards within their organizations.

We believe that ESG is not a mere question of legal compliance but demands a commitment to generating the greatest possible positive impact to stakeholders.

Our Firm's experience, broad multidisciplinary Practice Areas and understanding of sustainability, allow us to develop comprehensive and coherent tailor-made ESG programs and strategies for each of our clients on matters such as public disclosure and securities' compliance, fund raising, due diligence and transaction advice, and corporate governance generally.

We believe in "walking the talk". Since 2018 our Firm has developed a Model of Social Responsibility. Like our clients, we have also committed to sustainable growth by adopting the UN's Global Compact SDGs. Consistent with our commitment to sustainability, we are a TCFD Supporter. We believe in the need and advantages of complying with a sustainable framework to increase transparency and opportunities within the financial markets.

In case you want further information, please contact our ESG and Sustainable Finance Team.
